## front opening

**High Quality, Extremely Durable, Instantly Recognisable, Easy to Empty, Proven Designs.**

### Front Opening Bins

ASF offer a co-ordinated range of well designed, Front Opening Litter Bins that are manufactured to withstand the harshest of environments but still add an attractive element to any scheme.

#### A wide range of features include:-

- Wide opening door with strong pillar box type hinge, and a 12.5mm stainless steel hinge pin plus a "slam shut lock" with key operation for quick and easy emptying.
- Internal lip around the aperture to prevent rubbish and liquid falling between the outer bin casting and the liner.
- Robust galvanised steel liner with two lifting handles.
- The base, which is cast in strong ductile iron, is raised slightly off the ground to facilitate hosing out and cleaning.
- The decorative rings are recessed which allows contrasting decorative highlights to be protected from damage.
- The word 'LITTER' is cast into the body.
